### Simple and reliable. Simply reliable.

Simple means reliable, when you use this RAID system for two 3.5" SATA HDDs. JBOD, RAID 0, RAID 1 and NRAID are possible. The system is prepared for HDD with more than 2 TB. eSATA and USB make sure transfer rates are good. IB-RD4320 is independent from the computer or operating system, thus it you can always rely on its good performance.

In order for the computer to access volumes larger than 2TB, both the hardware and Operating System need to support large volumes (e.g.: WinVista/7 32bit/64bit or Mac OS 10.4 and above).
